

truth in tolerance, knowledge through
diversity, bonds of unity, strength in trust

August 30, 2018

Gamma Rho Lambda National Sorority aims to be a safe and supportive place for our members and advocates. With everything happening in our nation, tensions are high as certain communities are constantly being targeted and attacked. We strive to be a place where people feel validated, affirmed and can find the connections and support systems needed during these particularly rough times.

As members of Gamma Rho Lambda are prohibited from discriminating based on race, color, nation of origin, religion, sexual orientation, gender identity, disability, age, marital status, family/parental status, income, political beliefs, etc. We want to ensure that the communities interacting with our members also do not discriminate for any of the above factors.

Our members are people of different races, cultures, ethnicities, sexual orientations, gender identities, locations, upbringings, etc. We want those differences in our identities and experiences to be highlighted, celebrated, honored, and validated. Our motto is Truth in Tolerance, Knowledge through Diversity, Bonds of Unity, Strength in Trust. Our siblings should be treated with the utmost respect to feel empowered to embody the values of our organization.

National Council is making a commitment to addressing issues of bias and discrimination head on by giving our members the space to come forward about these events. Our desire is to create an open environment for communication about injustices that occur. Each national council member is available anytime via email and we encourage people to reach out.

Moving forward, please let us know if you are encountering instances of isolation, bullying, or discrimination so that we can work together toward concrete solutions.

Thank You,

Gamma Rho Lambda's National Council

truth in tolerance, knowledge through
diversity, bonds of unity, strength in trust
